

Invitation

Dear Colleagues:

We would like to extend a very special welcome to you and your colleagues to attend the 13TH International Symposium on Ultrasound Contrast Imaging & 3RD Asia-Pacific Conference on Ultrasound Contrast Imaging. This promises to be a different and most exciting program.

In the past decade, exciting developments in contrast agents and imaging techniques of ultrasonography has lead to unprecedented growth. It has opened the door to enormous possibilities in diseases diagnosis and therapy. The mission of this symposium is to provide the scientific and educational forum where international experts from multiple disciplines can gather and advance the future of contrast enhanced ultrasonography.

In 2009, for the first time "11TH International Symposium on Ultrasound Contrast Imaging & 1ST Asia-Pacific Conference on Ultrasound Contrast Imaging "was held unprecedentedly in China. From Japan, Korea, Canada, the United States, Europe and China, many well-known scholars' excellent speeches not only further expanded global communication and cooperation in this area, but also promoted Ultrasound diagnosis, treatment and research as a whole system in China.

With your participation and contribution, another giant step will be made in contrast enhanced ultrasonography this year. Your attendance would no doubt prove to be a valuable experience not only in updating your knowledge in ultrasonography, but also in visiting the beautiful "spring city", Kunming.

We look forward to seeing you in Kunming in December for this exciting scientific event.

Sincerely,

Chen Min-hua, MD

Attractions and Hotel

As a pearl on the Yungui plateau, Kunming is the most important land way connecting China and Southeast Asia with a history of more than 2400 years. Kunming enjoys a pleasant climate with the average temperature of 18 degrees Celsius and renowned as the “Spring City”.

Kunming is the focal point of Yunnan minority culture. Some 26 ethnic minorities such as Yi, Bai, Miao, Dai, Hani etc. inhabit the region. Each group has its own featured festivals such as the Torch festival of Yi people, the Golden Temple Fair and so on. More and more tourists come to discover this enchanting part of China.

Its alluring highland scenery, bewitching karst landform, varied and exotic habitats and customs and places of historical interest can be found at major scenic spots such as Lake Dian, Stone Forest, the Village of Ethnic Culture, Grand View Pavilion, etc.

Lake Dian is the largest highland lake in Yunnan Province. The lake is surrounded by lush growth of trees and plants, with peony in full bloom in spring, and chrysanthemum blossoms in autumn. Every year in December more than ten thousand black-headed gull migrate to Kunming for winter.

The host of this Symposium, the Empark Grand Hotel in Kunming is the most luxurious five-star hotel with 9 meters high international conference of 1500m² and wireless interpretation system. Guests can enjoy natural hot springs in the room or in the hotel garden pools for pleasures and relaxation.
